Capital Improvement Program Public Facilities

The Public Facilities Capital Improvement Program maintains public buildings in a clean, safe and functional condition. Town buildings include the Civic Center, Neighborhood Center, Service Center, Tait and Forbes Museums and partial service to the Recreation Center. The objectives of this program are to schedule maintenance and necessary repairs to facilities and complete periodic facility rehabilitation and upgrades.

All projects are prioritized in conformance with the Town's General Plan, Federal and State mandates, Federal and State grant restrictions, and local community standards.

The Community Development Department assumes responsibility for evaluating the overall conformance to general plan and the status of environmental assessment.

Revenues from the Town's General Fund and Grants provide most of the operational and maintenance costs.

Project Description

On April 15, 2002, the Town Council approved an agreement with a consultant to assist in the development of a Civic Center/Library Master Plan. The project entails a three-phased approach: a Service Assessment; an Operational and Space Program; and Site Options and Master Plan Concepts, including cost models, financing and funding strategies, and a phasing plan. In its entirety, the Master Plan will identify the services needs of the community and set forth operational and physical models for accommodating the service needs. The Master Plan does not include architectural design.

Project Notes

In FY 2004/05, the Town will complete the Operational and Space Program, and receive Council and community input on proceeding with the development of site options and Master Plan concepts.

ADA UPGRADES/TOWN LIBRARY DOORS - CDBG 410-0407

Project Descriptions

This project funds the installation of ADA compliant doors to the Town's Main Library and Children's Library. This will provide better accessibility for people with disabilities and inabilities to open the large doors currently at the main entrance to the libraries (from the northwest library parking lot entrance).

Project Notes

This has been on staff's list of recommended ADA improvements. CDBG-ADA grant funding is available to use for this purpose. Project is to be completed by summer 2004. Any remaining balance will be utilized in the ADA Upgrades/Ramps project 410-0439.

NEIGHBORHOOD CENTER FRESH AIR EXCHANGE 400-0531

Project Descriptions

This project is necessary because currently there is no fresh air exchange serving the second floor of the Neighborhood Center. Full and complete fresh air exchange is necessary to eliminate current issues with odor and potential health problems. This project will prevent ongoing problems of the nature described above will improve the ability to provide a comfortable and safe environment for the public and staff to work.

Project Notes

This project addresses the health and safety issues of air flow in the Neighborhood Center.

Project Descriptions

This project will construct ADA improvements in various crosswalks on Los Gatos Blvd. and Main St. This includes modifying existing medians that prohibit through handicap access. This project will also install ADA ramps in existing crosswalk areas that do not currently have them. The following crosswalks have been designated for ADA ramps: Los Gatos Blvd. at Stacia, Los Gatos Blvd. at Filmer, and Main St. at Lundy Lane.

BLOSSOM HILL PARK BATHROOM ROOF REPLACEMENT 400-0550

Project Description

This project will replace an existing old and leaky roof at the bathroom in Blossom Hill Park. As part of the ADA Upgrade Project, the Blossom Hill Park bathroom was upgraded to meet ADA standards. The new roof is also needed to protect the investment in the facility and the newly installed fixtures.
